SPIEGEL & MCDIARMID LLP

Managing Cyber Supply Chain Risk-Best Practices for Small Entities

April 25, 2018 | *Cynthia S. Bogorad*

Cindy Bogorad and Latif Nurani assisted the American Public Power Association (APPA) and the National Rural Electric Cooperative Association (NRECA) in preparing a white paper "Managing Cyber Supply Chain Risk-Best Practices for Small Entities." The white paper responds to an August 2017 NERC Board of Trustees resolution, issued concurrently with the approval of NERC's new supply chain management reliability standards, calling on APPA and NRECA to identify best and leading practices in supply chain management with a focus on small registered entities. The white paper is a useful resource for small registered entities with low-impact Bulk Electric Systems Cyber Systems that seek to strengthen their existing supply chain risk management practices.

American Public Power Association and the National Rural Electric Cooperative Association
